Born from the heart, Cypress HomeCare Solutions was founded by the Roth family in 1994 after their mother became ill and her husband and sons stepped in as her devoted caregivers. Since then, Cypress has touched the lives of thousands of families by providing compassionate care in people's homes. Sheldon, the patriarch of the family, is chairman of the board. His son, Bob, is managing partner. Currently on the development board for Banner Alzheimer's Institute, Bob previously served four years on the Alzheimer's Association development board, and was Memory Walk co-chair. On the faculty of several key trade associations, Bob is completing his first term on the board of directors for the Private Duty Homecare Association. Serving alongside Bob is Chief Operating Officer Scott Spangler. With more than 25 years of health care, nonprofit, retail, distribution and sales experience, Scott has held positions with the American Red Cross and John C. Lincoln Health Network. Cypress' one-of-a-kind Training Lab provides caregivers essential skills — teaching tools include the use of a life-sized 160-pound "dummy," Bob 2. The company maintains the highest caliber of care by constantly evaluating its clients' needs and caregivers' expertise, and always focusing on finding the right solution.
